POLICY

The College shall provide data to students and the public regarding average debt accumulation attributable to their participation in the degree programs of the College.

RESPONSIBLE OFFICIAL(S):

Head of Enrollment Services

PROCEDURE:

1. The Office of Enrollment Services shall compile annual data regarding average debt load for enrolled students. Such data shall include all loan resources available to students.
2. The College shall publish on its website the current average student debt for the last four years of its graduated students.
3. When such data becomes available, the College shall further determine and publish its default rate for loan funds administered under Title IV of the Higher Education Act for each of the immediately past four years.
