

RESEARCH UPDATE

A WEEKLY COMMUNICATION FROM THE OFFICE OF RESEARCH & SPONSORED PROGRAMS

VOLUME 3: NUMBER 2

July 30, 2021

GENERAL INFORMATION

- **Distinguished Researcher Seminar Series 2021-2022**

We are pleased to be able to support the continuance of the Distinguished Researcher Seminar Series and excited that the seminars will be able to occur as in person events. Department Chairs have been notified of the program. Each academic department (i.e., Anatomy & Cell Biology, Biomedical Sciences, Clinical Medicine, and Physiology & Pathology) will have the opportunity to host 2 speakers during the academic year. We are planning for one Distinguished Researcher Seminar per month, beginning in September and ending in May. The April seminar will be invited and hosted by the Medical Students. Speakers should be active researchers and seminars should be research focused.

- **ORSP Seeks New Director of Student Research**

The Office of Research & Sponsored Programs is seeking applications from interested faculty for the Director of Student Research. Interested faculty should submit a letter of interest articulating their vision for enhancing faculty-mentored student research at the College along with a current curriculum vitae to Dr. Benoit. Review of applications will begin immediately.

MEDICAL STUDENT INFORMATION

- **Class of 2025**

- **Mandatory RCR Training**

- All students are required to complete the Responsible Conduct of Research CITI Program module. Details of what is required is available on LEO under the Research session of Orientation Week. Please contact our office if you need additional assistance. The Deadline for completion is August 30, 2021. RCR training is valid for 4 years.

- **Guidance on Authorship & Institutional Attribution**

Many of you have asked how you should list your affiliation on manuscripts when the research was conducted at another institution prior to your coming to Burrell College or at a non-affiliated institution with non-affiliated faculty while you are a student at Burrell College. In instances where the research was not conducted at Burrell College, you should not list your affiliation as Burrell College. Your affiliation shall be the institution where you conducted the research since listing Burrell College as your affiliation implies that the College would have had oversight responsibilities for some or all of the project. Since this is not the case, then the appropriate way to acknowledge your current status is to include a statement in the acknowledgements or disclosure section of the paper that reads: "[YOUR NAME] is presently a medical student at the Burrell College of Osteopathic Medicine, Las Cruces, NM." This way you can inform readers of your current status and the research affiliation remains with the institution where the work was conducted.

Please feel free to contact me for further guidance.

*Joseph N. Benoit, Ph.D.
Assistant Dean for Research*

RESEARCH LABORATORIES

- Faculty with ongoing research projects are reminded to inform Kalli Martinez of your plans so that we can coordinate housekeeping schedules with laboratory utilization.

DATES AND DEADLINES

- Institutional Review Board (IRB)
 - August 23, 2021, 12:00-2:00 p.m.
 - Last day to submit materials for the August meeting: August 10, 2021.
