STANDARD OPERATING PROCEDURES

On The Job Training (OJT) Plan		SOP #: HR.032.00
Effective Date	11.29.2022	
Last Revision/Review	11.29.2022	

1. Purpose

The OJT plan is intended to increase the employees' level of experience in the position for which they otherwise qualify for. The OJT plan will create a process for current and/or perspective employees, who were or may be hired below the established median threshold (by at least 10%, due to not satisfying the required level of experience), to obtain the additional knowledge, skills, and competencies necessary to perform a specific job within the college. Working with the Office of Human Resources (HR), the supervisor can create a long-term plan, which may include a multi-year compensation adjustment (subject to Assistant Vice President (AVP) of Human Resources (HR)/ budgetary approval, as well as meeting of established performance expectations). The long-term plan should not exceed a period of more than two years and the gradual compensation increase, if applicable, would be related to the bi-annual market equity study. The supervisor will work directly with the Office of HR to determine the appropriate gradual compensation increases as well as the appropriate timeline to correlate with the Fiscal Year. The supervisor will have the ability to revise the initial plan, if necessary, throughout the process.
