Clerkship Rotation Syllabus

CLASS OF	2024
DATES	2022-2023
CREDIT HOURS	4.0
CONTACT HOURS	160
ASSESSMENT TOOLS	Clinical Performance-Preceptor Evaluation(s) Cognitive (COMAT) Performance COMBANK Quiz Completion of Case Modules (8) and Textbook Quiz Completion of Case Logs Completion of Student Evaluation of Rotation Submission of Mid Rotation Evaluation
TRANSCRIPT CATEGORIES	Honors/Pass/Fail
LOCATION	Rotation Site
CLERKSHIP DIRECTOR	Harry Silsby, MD
COURSE COORDINATOR	Whitney Cano

Course Description

The Psychiatry core clerkship is a four (4) week experience served in inpatient and ambulatory settings with concentrations varying by hub assignment. The clerkship affords students the opportunity to gain experience in the practice of behavioral medicine. Performing a comprehensive patient behavioral health interview leading to a diagnosis and management plan is a core competency of this clerkship. Students will work with patients presenting with symptoms of depression, bipolar disorder, psychoses, and other behavioral disorders. Management of patients dealing with substance abuse and dependency is a frequent challenge in the clinical practice of psychiatry. Each practice may have a unique profile of patients that will offer greater insight into a particular entity.

Course Goals

The overall goal is to offer students a common set of learning experiences that will include:

- An orientation to psychiatry and its value to care of patients.
- Repeated opportunities to both witness and conduct a competent basic psychiatric evaluation including a mental status examination.
- The opportunity to successfully complete a risk assessment for suicide and homicidal ideation/plan by learning to ask patients about these issues then formulating a plan to reduce risk.
- The ability to construct a reasonable differential diagnosis for common psychiatric problems such as psychosis, mood disorders, and anxiety disorders.
- Construction of a reasonable psychiatric treatment plan which demonstrates the basic psychopharmacologic skills including the indications for use and mechanism of action of psychotropic medications.
- An opportunity to learn about effective treatments such as supportive therapy and cognitive-behavioral therapy.
- Exposure to somatic therapies including ECT would be desirable during the rotation if feasible

Course Objectives

Objective	AOA Core Competencies	Programmatic Level Educational Objectives
1. Formulate a prioritized list of the 8-10 most common differential diagnoses for each of the problems/diseases specified by combining clinical information and outside resources effectively (literature search, readings, etc.).	3	1, 4, 5
2. Formulate a cost effective diagnostic approach consistent with the prioritized differential diagnoses.	3	1, 4, 7
3. Define therapies for common disease processes encountered in Psychiatry.	2	1
4. List common risks vs. benefits to be considered when selecting treatments and management therapies	3	1
5. Perform a thorough history and physical exam.	3	1, 3, 4
6. Present cases concisely, emphasizing the pertinent elements of the historical and physical findings, labs, treatments, and the biopsychosocial explanations for each problem	3	1, 4
7. Recognize urgent/emergent situations and alert appropriate health care providers	3	1, 4, 6
8. Demonstrate professionalism, compassion, and empathy when communicating with patients and	5	3, 4

healthcare team members		
9. Demonstrate effective communication in the patient's chart by creating a comprehensive and pertinent legal document	3	1, 3, 4
10. Demonstrate a desire to learn by asking questions to faculty, fellow students, and team members	3	1, 4, 6
11. Exhibit a capable and professional demeanor by concern for patients and in interactions with team members.	5	1,4
12. Be able to use the biopsychosocial model of illness which is applicable to the care of patients.	2	1
13. Describe the major psychiatric diagnoses as defined in the DSM-IV-TR and DSM-V in the context of epidemiology, pathophysiology, risk factors, substance-related contributions, clinical presentation and prognosis	2	1
14. Be able to conduct a basic psychiatric interview, including skills in recognizing and categorizing psychological and behavioral phenomena as described in the mental status exam for common psychiatric disorder.	2	1, 4

Required Resources and Equipment

Textbooks:

- Introductory Textbook of Psychiatry, Seventh Edition by Andreasen, N. C. and Black D. W.
- Kaplan and Sadock's Pocket Handbook of Clinical Psychiatry, 6th Ed. by Virginia A. Sadock

Readings:

Required reading will be assigned during clerkship.

Your required text is *Introductory Textbook of Psychiatry, Seventh Edition*, by Andreasen, N. C. and Black D. W., 2021, Washington, DC: American Psychiatric Publishing (Reading this textbook will better prepare you for the Psychiatry Clerkship Shelf Examination)

Student Responsibilities Regarding Patient Supervision:

All medical activities involving medical students must be supervised by a licensed physician responsible for the care of the patient. The supervising physician had the responsibility for determining the level of supervision needed by the student.

Equipment:

Equipment will be recommended at the discretion of your site attending. You may wear scrubs during the rotation if this is approved by the Psychiatry Department, but you must also wear your white coat and Burrell College of Osteopathic Medicine identification badge.

Academic Participation

Student responsibilities:

- **Reading:** Your required text is *Introductory Textbook of Psychiatry* by Andreasen, N. C. and Black D. W. Read about the diseases and procedures you see each day. In addition, there will be required topics that are essential for learning and passing the exam at the end of the rotation. Students must complete a Quiz based on chapters contained within this text-book. **This quiz will be administered through Leo and must be completed by 5pm the last Wednesday of the rotation, to be eligible to sit for the COMAT exam.** In addition to this text, you may have suggested reading given to you by your attending. You should discuss these topics with the attending at your site.
- **History and physical exam review:** A major portion of your time will be devoted to conducting patient histories and physical exams. This is a tremendous opportunity to learn how to interact, gather information and diagnose the disease and treat patients.
- **Aquifer:** The medical student will receive an invitation through “Aquifer” to complete registration and instructions to the course content. Please, select “Launch CARE” and complete 8 of the 12 available cases. **Completion of 8 CARE case modules is required to be completed by 5pm the last Wednesday of the rotation, to be eligible to sit for the COMAT exam.**
- **Patient Encounter and Procedure Logs:** The Patient Encounter and Procedure Log for the Psychiatry Rotation is found in New Innovations Software System. On a daily basis, the student should enter data from their clinical shift into the log. All logged patient encounters should include the following basic information: Case ID; the supervising attending physician; the date patient was seen; the patient’s age; and patient type if applicable. The log can be electronically submitted at the end of the clerkship. The log is used to assess expected scope and variety of patients and/or conditions seen. Medical students complete their logs to assess their exposure to Psychiatry diagnoses and procedures. **Logs must be entered into the New Innovations system by 5pm MT the last Wednesday of the rotation, to be eligible to sit for the COMAT exam.**
- **TrueLearn COMBANK Quiz:** The medical student is required to **take and pass, with a 70% or higher, the COMBANK Assessment associated with the rotation by 5pm the last Wednesday of the rotation, to be eligible to sit for the COMAT exam.**
- **Mid Rotation Evaluation by Preceptor:** The medical student is required to meet with their preceptor and have them complete a mid-point evaluation of their performance, for each rotation. This evaluation must be uploaded into Leo for Clerkship Directors to review **by 5pm the second Sunday of the rotation.**

Required Procedures to be Performed by Student

Name: _____ Hospital: _____

Rotation Dates: _____
Print Dates

For this log to be accepted, all requested information – including date of procedure, supervisor’s last name and contact information, and role – must be included for each entry.

By the end of the clerkship, the student is expected to have satisfactorily performed, at least once, those skills and procedures listed on the Skills Checklist below. The student is expected to understand the indications and contraindications, as well as the technique.

Date the Procedure was completed	Required Procedures to be Performed by Student	Role (Observed, Assisted, or Performed)	Print Supervisor’s Last Name and Contact Information

By checking this box, I certify that the information provided on this log sheet is accurate and truthful and has been reviewed and approved by my attending. I understand that the clerkship director may audit this log sheet at any time to verify its validity.

**This case log must be entered into New Innovations no later than 5:00 PM of the last Wednesday of the rotation.
 This is a guide so that you may enter into New Innovations.**

Grading Information

Assignment of Grades

A grade for each rotation will be assigned by the Clerkship Director or her/his designee. A letter grade of P-Pass, F-Fail or H-Honors will be assigned for each core rotation. Elective rotations shall only be graded as P-Pass or F-Fail.

Elements of Rotation Grading

Each third-year core rotation will have seven (7)* elements contributing to the final grade and each element must be individually passed (including submissions with deadlines) to pass the clerkship:

- Clinical Performance-Preceptor Evaluation(s)
- Cognitive (COMAT) Performance
- COMBANK Quiz
- Completion of Case Modules
- Completion of Case Logs
- Submission of Mid Rotation Evaluation(s)
- Completion of Student Evaluation of Rotation(s)

Clinical performance will be graded by the supervising preceptor. This assessment includes eight (8) questions designed to assess academic skills and core competency acquisition. Grading on elective rotations will be solely determined by this assessment. Students are expected to achieve a score of 3, 4, or 5 for each domain. An average score of at least 2.85 on all observed skills and competencies must be obtained to pass this element.

In addition to the requirements above, students must receive a minimum score of three (3) on the preceptor's assessment of Professionalism (Question 5) to pass this element. Failure of this element will result in Professionalism Corrective Action.

Cognitive performance will be measured by the end-of-rotation COMAT exam. The NBOME provides a conversion table to obtain a percentile rank from the student's raw score. A percentile rank of 3 corresponds to a raw score of 81 and is -1.88 Standard Deviations below the national adjusted mean. A minimum raw score of 80 is needed to pass this element. Also, more than two cumulative failures of COMAT in different disciplines will result in a failure.

The students will have to pass, with at least 70%, the COMBANK Quiz in TrueLearn. This test is timed. In case of failure the student will have a chance to retake the quiz. The student will not be penalized for failing the quiz for the first time. The passing grade for the quiz should be received by 5:00 PM the last Wednesday of the rotation in order to be eligible to sit for COMAT exam. If a student fails the first attempt, one additional attempt will be granted before COMAT Friday. If this requirement is not met, the student will fail the rotation. Also, more than two cumulative failures of COMBANK Quiz in different disciplines will result in a failure.

Clinical reasoning will be assessed through completion of the assigned online cases. Completion of all cases is required to pass this element. The student will not be permitted to sit for the COMAT exam if the cases are not completed **by 5:00 PM the last Wednesday of the rotation.**

Case logs: Students must submit their completed Patient Encounter and Procedure Log electronically through New Innovations **by 5:00 PM, the last Wednesday of the Rotation.**

Mid-Rotation Evaluation by the Preceptor

This assessment includes eight (8) questions from the Clinical Performance evaluation, designed to assess academic skills and core competency acquisition. The purpose of this evaluation is for the student to receive feedback from the preceptor at the mid-point of the rotation, so they may improve over the course of the second half of the rotation. The student is responsible for obtaining this evaluation from their preceptor **at the end of week two of the rotation**, and it must be uploaded into Leo for the Clerkship Directors to review. The information gathered from this evaluation will not affect the student's final grade, but it is required to be uploaded to Leo **by 5pm the second Sunday of the rotation**.

Student Evaluation of the Preceptor/Site/Rotation

Students are required to complete evaluations on New Innovations regarding their rotation experience. Student feedback received from the evaluations will assist the Office of Clinical Education in the overall assessment and improvement of clinical rotations and the implementation of faculty development programs. An annual summary of student comments will be reported anonymously to preceptors and training sites to assist them in making improvements to the rotations that they provide. The evaluations are to be completed by 5:00 PM on the last Wednesday of the rotation.

Failure to complete each clerkship evaluation in a timely manner may result in a finding of non-professional conduct and may lead to a Professionalism Corrective Action.

Failure to pass any of the graded elements will result in a failure of a rotation.

All grades are final as recorded by the department and cannot be appealed or changed unless the student identifies a process error.

Semi-Annual Evaluation

All the students will receive a semiannual evaluation from their Hub Coordinator. The Hub Coordinator Evaluation will count towards the professionalism component, and in case of failure, the student may be required to go through the Professionalism Corrective Action and be disqualified from Honors. The coordinators will have the option to submit a complaint form to the Office at the time of incident. The report will be reviewed by the Office of Clinical Education and the student may be required to go through Professionalism Corrective Action.

Attainment of Honors

Attainment of Honors (H) for each core rotation will be limited to the highest performing 10% of the class based on cumulative points earned for the rotation. Honors for all core rotations will be determined at the end of the academic year when all final assessments have been recorded. The Clerkship Directors will identify the top 10 % of students who will receive the honors designation.

Failure of a Rotation and Remediation

A failure of any graded element as described herein will result in failure of the rotation. The requirements for remediation will be determined by the Clerkship Director. This may require a repeat of the COMAT exam and attainment of a minimum passing grade, completion of outstanding cases, or repeating all or part of the clerkship experience. When successfully completed, a remediated passing grade will be so designated on the student's final transcript. (For detailed information on Clerkship grading please see attached slides).

All Year 3 requirements must be successfully completed to advance to Year 4. The need to repeat any

failed clinical rotations may result in a delay in graduation

Course Communication

Students are expected to monitor their Burrell College of Osteopathic Medicine email and are responsible for all communications sent to their official email address. Students are also expected to monitor E-mail, LEO, New Innovations, and Aquifer.

Policies and Procedures

Information regarding course grades, attendance (including excused absences), exam procedures, remediation, appeals, acceptable use of technology, honor code, professional attire, and related policies are stated in the current Student Handbook. Policies regarding non-discrimination, accommodations for disabilities, and Title IX are also referenced within the Student Handbook. All policies and procedures stated therein will apply during this course.

The [Student Handbook](#) may be accessed through the Burrell College of Osteopathic Medicine website.

For information regarding emergency or inclement weather, refer to the [Campus Safety and Security page](#) on the Burrell College of Osteopathic Medicine website.

For information regarding Clerkship Rotations, refer back to the [Student Clerkship Manual](#) on the Burrell College of Osteopathic Medicine Website.

Statement Regarding Reservation of Power

The curriculum, assignments, schedule, syllabus, and any information contained within the course can be altered or changed at any time. In the event of any alterations during the course, students will be informed officially through their Burrell College of Osteopathic Medicine email. It is the student's responsibility to obtain the changes or notices even if absent from class.

Appendix

A. Programmatic Level Educational Objectives

Graduates of the Burrell College of Osteopathic Medicine Doctor of Osteopathic Medicine degree program will be able to:

1. Integrate knowledge and skills acquired from the biomedical, clinical, social, and behavioral sciences to provide patient care in a supervised setting.
2. Demonstrate competence in the skills of osteopathic manipulative treatment and the application of osteopathic philosophy in patient care.
3. Demonstrate professionalism, characterized by honesty, integrity, ethical behavior, empathy, and responsibility.
4. Communicate effectively with patients, families, faculty, peers, and other members of the healthcare team.
5. Critically appraise, evaluate, and apply scientific evidence to inform patient care and research.
6. Demonstrate awareness of the roles and interactions of professionals within the healthcare system and identify resources to optimize patient care at the individual and community levels.
7. Identify the specific healthcare needs of diverse populations and the ways in which the medical community responds.

B. AOA Osteopathic Core Competencies

1. Osteopathic Philosophy and Osteopathic Manipulative Medicine
2. Medical Knowledge
3. Patient Care
4. Interpersonal and Communication Skills
5. Professionalism
6. Practice-Based Learning and Improvement
7. Systems-Based Practice

Assessment

The following is general information regarding rotation grading. Students are encouraged to review individual rotation syllabi for full details as to the grading rubric for that rotation.

Each third-year core rotation will have seven (7)* elements contributing to the final grade and each element **must be individually passed** (including submissions with deadlines) to pass the clerkship:

- Clinical Performance-Preceptor Evaluation(s)
- Cognitive (COMAT) Performance
- COMBANK Quiz
- Completion of Case Modules (*optional for OBGYN, unless COMAT failure)
- Completion of Case Logs
- Submission of Mid Rotation Evaluation(s)
- Completion of Student Evaluation of Rotation(s)

Any type of failure, including missed deadlines → NOT eligible for HONORS

Assessment continued

- First time failure of COMAT
 - Reassign COMAT, if passed successfully → P
 - If failed second time → Failure of the rotation (SPC) → PX (if allowed to remediate and passed on the third attempt)
- First time failure of evaluation
 - If a 4-week rotation (Peds, Psych, OBGYN, EM, Elective) → Failure of the Rotation (SPC) → PX (if allowed to remediate, and successfully remediated)
 - If an 8-week rotation (failure of first evaluation of IM, FM, or Surgery) → Referral to Clinical SPARC
 - If an 8-week rotation (failure of both evaluations of IM, FM, or Surgery) → Failure of the Rotation (SPC) → PX (if allowed to remediate, and successfully remediated)
 - Clerkship Director determines the final grade once both preceptor evaluations have been received for 8-week blocks.

Any type of failure → NOT eligible for HONORS

More than two cumulative failures of COMAT in different disciplines will result in a failure of the second specialty.

Assessment continued

- First time Professionalism Failure → Professionalism Corrective Action
 - Completion of Assignments by the deadline
 - Meeting with the Panel:
 - Associate Dean of Clinical Education or their designee
 - Professionalism Coach
 - Representative of Student Affairs
 - At least Two Clerkship Directors
 - Grade → P
- Second time Professionalism Failure → Rotation Failure (SPC) → PX (if allowed to remediate, and successfully remediated)

Any type of failure → NOT eligible for HONORS

Assessment continued HONORS DESIGNATION

- OBGYN, Peds, Psych, FM , IM, Surgery, EM
 - Top 10 % of students will receive honors
 - Both rotation of IM, FM, and Surgery will be used to determine honors eligibility

Any type of failure → NOT eligible for HONORS
