POLICY

The Burrell College shall provide learning and practice opportunities for its students in partnership with other health care professionals to promote concepts of team-based interprofessional practice.

RESPONSIBLE OFFICIAL(S):

Offices of Pre-Clinical Education and Clinical Education

PROCEDURES:

1. The College shall develop and execute a curriculum of interprofessional education inclusive of students from other health related programs.
2. The College curriculum shall include discrete learning objectives and assessments intended to assure acquisition of competence in interprofessional team-based health care delivery.
3. Burrell College students shall have opportunities to observe and participate in the activities of diverse health care teams engaged in interprofessional practice during preclinical experiences and core clerkships.
