

Review of Cost-of-Attendance

The Cost of Attendance (COA) is an estimate of the student's educational expenses for the academic year for which a student is enrolled. The COA is used to determine the amount of financial aid a student can receive during the period of enrollment. The COA is determined within the federal guidelines and consists of actual tuition and fees, estimated living allowance, travel and other personal expenses.

Additional educational expenses may be considered in adjusting the COA that may not have been included in the standard COA determination. A student can submit an appeal for the nine-month academic year if they feel that their actual COA is higher than estimated COA.

A signed, detailed letter written by the student describing the reason for the appeal must be submitted along with the additional required documents indicated in the chart below. Use the chart below to indicate the reason for your appeal:
