Accredited with Exceptional Outcome
by the Commission on Osteopathic College Accreditation (COCA)

Academic Distinctions

- Research:** Conduct longitudinal faculty-supervised research in basic biomedical science, clinical science, population and public health, and medical education
- Rural Medicine:** Understand the unique healthcare needs of rural populations and make a meaningful, positive impact through the completion of special projects

From left to right, Medical Students Walker Toohy, Love Opoku Afrifa, Lauren Mackell, Anshika Bandyopadhyay, and Justin Best

Pre-Clinical Education

We utilize active learning techniques through case discussions, team-based learning, laboratory and skills instruction, and interactive integrative sessions. This includes participating in simulated clinical experiences, small group sessions and directed study. Highlights of the pre-clinical curriculum include:

- Mission Medicine:** Engage in a community-based learning curriculum
- Gross Anatomy Laboratory:** Participate in cadaveric dissection to maximize your understanding of the fundamentals of anatomy
- Principles of Clinical Practice:** Develop foundational clinical skills for treating patients

Clinical Education

We have established Regional Academic Centers in New Mexico, Texas, Arizona, and Florida for your third-and fourth-year clinical education. A network of hospitals, medical centers, and practicing physicians support a comprehensive selection of generalist and specialty clerkship experiences. You will treat diverse patient populations while cultivating your interests and developing a well-rounded, clinical skillset.

ADMISSIONS

Burrell College seeks applicants inspired by our Mission who wish to pursue unique opportunities to engage with diverse communities. We use a holistically driven, rolling admissions process where applicants are assessed in several areas, including academic and non-academic characteristics. We encourage you to review the admission requirements, recommendations, and process information on our website for the current cycle for which you are applying.

Pre-screening minimum requirements:

- Current U.S. Citizen or U.S. Permanent Resident
- Submission of a Medical College Admission Test (MCAT) Score

YOUR CHECKLIST

Apply via AACOMAS.org and designate Burrell College

If invited, complete the Burrell Supplemental Application

Select a preferred campus: Las Cruces, NM or Melbourne, FL
