

Burrell College of Osteopathic Medicine Strategic Plan January 2025 – December 2029

Mission

The Burrell College of Osteopathic Medicine educates a diverse osteopathic physician workforce committed to improving the quality and access to healthcare in underserved communities.

¡Para la gente y el futuro! For the people and the future!

Vision

The Burrell College of Osteopathic Medicine will be celebrated for preparing culturally competent physicians dedicated to serving the Southwest, particularly among its Native American and Hispanic populations, and further extending locally and nationally to all underrepresented communities served by the College.

Executive Summary

Over the last nine years, the Burrell College of Osteopathic Medicine's strategic initiatives have helped the College achieve several important milestones as a growing medical school. Among the most noteworthy were obtaining Accreditation with Exceptional Outcome, a ten-year status, from the American Osteopathic Association Commission on Osteopathic College Accreditation and the opening of an additional campus location in Melbourne, Florida. The 2025-2029 Strategic Plan builds upon the progress of the College's previous strategic plan and continues the College's persistent path; to educate a diverse physician workforce committed to improving the quality and access to healthcare in underserved communities. Guided by the mission and its vision, the strategic plan serves as a framework for institutional decision-making and priorities.

The process of establishing strategic priorities involved each department head working with their team to assess operations and identify key strategies (see Appendix A) that support the College's mission, align with accreditation standards, and foster innovation to enhance the student experience, improve the quality of the degree program, and strengthen other aspects of the College's operations. To build on the identified departmental strategic goals and ensure alignment with institutional commitments, a Dean's leadership retreat, including administrative leaders and students, was held on June 20-21, 2024. A follow-up retreat on December 6, 2024, focused on aligning the College's support services with these priorities. These retreats provided academic leadership and student representatives an opportunity to reaffirm the College's mission and vision statements and identify strategic priorities for the College's five-year plan. Throughout these deliberations, it was recognized that the College is committed to meeting programmatic educational objectives in the Doctor of Osteopathic Medicine degree program.

Programmatic Level Educational Objectives

Objective I

Integrate knowledge and skills acquired from the biomedical, clinical, social, and behavioral sciences to provide patient care in a supervised setting.

Objective II

Demonstrate competence in the skills of osteopathic manipulative treatment and the application of osteopathic philosophy in patient care.

Objective III

Demonstrate professionalism, characterized by honesty, integrity, ethical behavior, empathy, and responsibility.

Objective IV

Communicate effectively with patients, families, faculty, peers, and other members of the healthcare team.

Objective V

Critically appraise, evaluate, and apply scientific evidence to inform patient care and research.

Objective VI

Demonstrate awareness of the roles and interactions of professionals within the healthcare system and identify resources to optimize patient care at the individual and community levels.

➤ Objective VII

Identify the specific healthcare needs of diverse populations and the ways in which the medical community responds.

Strategic Initiatives

The 2025-2029 Strategic Plan puts forth five overarching focus areas that are designed to leverage resources and create achievable actions in support of the mission and vision of the Burrell College of Osteopathic Medicine. Departments of the College have created strategy maps with identified goals, tactical initiatives, specific activities, and metrics in support of one or more of the strategic focus areas. Strategy maps are provided in Appendix A.

Strategic Focus One: Learning Environment

- Critically review, analyze, revise, and reform the College's existing curriculum in alignment with educational best practices and healthcare demands.
- Enhance integration between the pre-clinical and clinical curriculum to enhance continuity and contextual learning.

Strategic Focus Two: Recruitment and Retention

Enhance recruitment and retention strategies while emphasizing the College's identity.

Strategic Focus Three: Student Support

- Improve student success by providing timely interventions and tailored support through the strategic use of performance data, predictive analyses, and resources.
- Expand a holistic, inclusive and sustainable culture of wellness with students, faculty and staff.

Strategic Focus Four: Professional Development and Outreach

Enhance professional development for faculty with a focus on clinical faculty engagement.

Strategic Focus Five: Growth

Ensure the College meets high standards of quality and compliance while broadening its educational offerings in the health sciences.

Academic leadership and student representatives of the College in attendance at the June and December strategic planning retreats:

Members Present:

Sid Alvarez, MS, Director of Marking and Public Relations

Muneer Assi, DO, Associate Dean of Clinical Education

Marc Benson, PhD, Chair of Faculty Council

Debra Bramblett, PhD, Chair of Biomedical Sciences

Scott Cyrus, DO, Chair of Clinical Medicine

Elizabeth Eaton, PhD, Director of Accreditation

Tammy Fowler, EdD, Associate Vice President of Enrollment Services

Alex Gasparian, PhD, Assistant Dean of Research

Robert Goldsteen, DO, Chair of Pre-Clinical Medicine

Kristin Gosselink, PhD, Chair of Physiology and Pathology

Jeff Harris, Associate Vice-President of Administration and Chief Information Officer

Oliver Hayes, DO, Associate Dean of Outreach and Graduate Medical Education

Erica Hughey, MBA, Chief Diversity Officer

John Hummer, MHA, President

Jonathon Kirsch, DO, Chair of Osteopathic Manipulative Medicine

Mary Lacaze, MD, Associate Dean of Community-Based Learning and Social Accountability

Trey Lemley, MLIS, JD, Director of Library

Doris Newman, DO, Florida Campus Dean

Nina Nunez, MAEd, Vice President of Institutional Effectiveness; Chief of Staff

Steven Ontiveros, PhD, Chair of Anatomy and Cell Biology

Bill Pieratt, DO, Dean

Lee Reid, MSE, Chief Information Officer

Vanessa Richardson, MAEd, Assistant Vice President of Student Affairs

Gabor Szalai, PhD, Assistant Dean of Faculty Affairs

Jennifer Taylor, MBA, Vice President of Administration/CFO

Michael Woods, PhD, Associate Dean of Academic Affairs

Student Participants:

Alexander Barrera, OMS-II Student Alberto Velasco, OMS-III Student

Appendix A

TACTICAL INITIATIVE: Develop and implement a comprehensive Self-Directed Learning strategy to ensure all our students acquire the skills and attitudes needed to be effective life-long learners.

GOAL: Satisfactorily Comply with Commission on Osteopathic College Accreditation (COCA) Standard 10: Graduate Medical Education (GME)

TACTICAL INITIATIVE: Establishment of a BURRELL GME Consortium to support institutional members transitioning from Initial to Continued Accreditation, provide resources to help our members meet and exceed ACGME requirements, remain compliant, and have exceptional training opportunities.

MARKET ANALYSIS

A process that results in factual information that helps you identify opportunities

Strengths -

- This goal was satisfactorily met for initial accreditation of Burrell and recent Accreditation with Exceptional Outcomes.
- Robust record of GME development.
- Ability to obtain extramural grant funding to support GME development.

Weaknesses -

- Modest resources devoted to GME at BURRELL.
- Since the initial strategic plan, substantial GME development but a consortium has yet to be formed.
- Staff Turnover.

Opportunities -

- GME programs associated with BURRELL need assistance that could be provided by the consortium.
- Other entities may want to partner with BURRELL for a consortium.

Threats -

- Complex model of affiliated GME programs
- Preserving the importance of local leadership while at the same time formalizing a consortium model of GME governance.

ACTIVITIES What actions will you undertake to achieve tactical initiatives and meet identified metrics?	METRICS How will you measure the performance of the activity? Educational Programming.		

GOAL: Satisfactorily Comply with Commission on Osteopathic College Accreditation (COCA) Standard 10: Graduate Medical Education (GME)

TACTICAL INITIATIVE: Facilitate development of GME programs in BURRELL's Regional Academic Centers (RAC).

MARKET ANALYSIS

A process that results in factual information that helps you identify opportunities

Strengths -

- This goal was satisfactorily met for initial accreditation of Burrell and recent Accreditation with Exceptional Outcomes; and,
- Excellent partner organizations in Eastern New Mexico and Florida.

Weakness -

- Insufficient evaluation and feedback to faculty and trainees; and,
- Educational deficiencies in professionalism, ethics, interpersonal skills, and teamwork

Opportunities –

- Importance of GME to COCA accreditor
- Advocacy for national high-quality standards for training; and,
- Increased interest in GME for example AIMES project

Threats -

- Highly variable Sponsoring Institutions; and,
- Training in rural settings remains difficult.

	program by ACGME; and, Award of Osteopathic Recognition to the Family Medicine Residency Program.		members.	Critical Points: Production of the ACGME application and awarding of accreditation to the residency program.

GOAL: Satisfactory Comply with Comply Commission on Osteopathic College Accreditation (COCA) Standard 10: Graduate Medical Education (GME)

TACTICAL INITIATIVE: While BURRELL is a private, for-profit institution, the College would like to establish a nonprofit corporation Health Innovations Institute (HII) to support graduate medical education, research and scholarship, and other programs that would better qualify for funding opportunities.

M	ΙΑ	R	K	EΤ	'
Α	N	ΑI	_\	/S	IS

A process that results in factual information that helps you identify opportunities

Strengths -

• Much of the work to establish HII has been accomplished such as creating a legally organized structure, production of by-laws, and establishing it purpose.

Weaknesses -

• Because of other important work, efforts lately have been postponed.

Opportunities -

- Tax-exempt benefits;
- Eligibility for grants;
- Deductibility of donations; and,
- Enhanced credibility.

Threats -

- Regulatory burden;
- Financial oversight;
- Operational limitations; and,
- Compliance and reporting requirement

ACTIVITIES What actions will you undertake to achieve tactical initiatives and meet identified metrics?	METRICS How will you measure the performance of the activity?	RESPONSIBILITY Who is accountable for the success of the activity?	RESOURCES What current and additional resources are required?	MILESTONES Begin, end and critical points
Evaluate current Burrell Resources and the organizational structure needed to support the HII.	Hire an executive director.	Dean Office	Evaluate what additional resources are required.	Begin: July 2024 End: July 2025 Critical Points: Midpoint of Academic Year
Developing Articles of Incorporation	Create articles of incorporation	Executive Director	This may have already been done.	Begin: July 2024 End: July 2025 Critical Points: Midpoint of Academic Year
Create a business plan.	Adopt a Business Plan	Executive Director	No cost	Begin: July 2024 End: July 2025 Critical Points: Midpoint of Academic Year

GOAL: Burrell College supports faculty and students in their efforts to advance knowledge by creating an atmosphere of inquiry and discovery that inspires excellence in scholarship and medical practice

TACTICAL INITIATIVE: The Office of Research and Sponsored Programs (ORSP) will expand and sustain research and creative scholarship opportunities for faculty and students.

MARKET ANALYSIS A process

A process that results in factual information that helps you identify opportunities

Strengths

- Diverse faculty; some with research accomplishments;
- Good college basic science research facilities;
- Some grant success;
- Strong student interest in research and scholarship;
- Intramural Support for Summer Research Experience; and,
- The Distinguished Researcher Seminar Series connects college faculty with researchers from other institutions.

Weaknesses

- Faculty workload limits time for scholarship;
- Lack of clarification for protected time. Lack of faculty incentives for scholarship;
- Research infrastructure needs improvement for notification for funding, assistance with proposals. weak with no statistical or research design support, ORSP limited in terms of notification of funding opportunities, assistance with proposal development, award notification, process for award management, and compliance.
- Medical school "for profit" status restricts funding opportunities;
- · Limited clinical research opportunities;
- Although basic science laboratory space is provided, it is relatively remote from the campus;
- Both Basic and Clinical Science faculty with limited research training or experience; and,
- Modest alignment between ORSP and Departments priorities.

Opportunities

- Location of Burrell on campus of NMSU/Florida Tech which should leverage relationships to engage in research and scholarship;
- Expertise of the basic science faculty.
- BURRELL students are increasingly interested in presentations and publications as a way to improve this performance record to increase competitiveness on their residency applications;
- Affiliated residency programs are interest in research and scholarship;
- COCA Accreditation Standards Require research and scholarly activity through its budgetary processes.

Threats

- Organizational structure in ORSP needs to be evaluated. Assistant Dean turnover has created a lack of research community.
- Competing priorities for faculty such as committee work, teaching, interviewing of applicants, and expansion of the medical school in Florida has left the faculty relatively little time for research;
- Relative lack of grant applications and extramural funding by faculty; and,
- Scant development of faculty that facilitates development of academic careers, and research program.
- Faculty need assistance with grant writing.

ACTIVITIES What actions will you undertake to achieve tactical initiatives and meet identified metrics? Provide research professional development educational opportunities for faculty/staff and students on topics ranging from responsible conduct of research to publishing to grant writing.	METRICS How will you measure the performance of the activity? Number of Participants Number and Quality of publications/grants being submitted. Publication/Grant Outcomes.	RESPONSIBILITY Who is accountable for the success of the activity? Assistant Dean, ORSP, Assistant Dean, Faculty Affairs	RESOURCES What current and additional resources are required? Funding for workshops, Incentives for participants, Incentives for successful completion of activities.	MILESTONES Begin, end and critical points Begin: July 1, 2024 End: June 30, 2025 Critical Points: Mid-point and end of academic year
Increase opportunities for trainees to participate in research: 1. Expand Summer Research Experience to include faculty mentored projects from clinical faculty at hub sites. 2. Encourage College faculty to offer opportunities for medical residents to join ongoing research projects. 3. Identify and recruit students into nonclinical research rotations supervised by college faculty.	Projects involving students. Medical students participating in faculty mentored research. Residents involved faculty mentored research.	Assistant Dean for Research, ORSP and Director of Student Research	Expand funding model for Summer Research Experience to include mentors at clinical hubs. Expansion of faculty research support fund to include resources for faculty at clinical sites.	Begin: July 1, 2024 End: June 30, 2025 Critical Points: Mid-point and end of academic year
Collaborate with Department Chairs to ensure allocation of research FTE is being met.	FTE allocation for research: 1. Publications 2. Grants Applications 3. Funded Grants 4. Students Supervised	Assistant Dean for Research Department Chairs Faculty	Revision of faculty agreement to include defined protective time which reduces other faculty duties.	Begin: July 1, 2024 End: June 30, 2025 Critical Points: Mid-point and end of academic year
Sponsor and facilitate the formation of a Student Research Interest Group or Club	Student involvement Faculty involvement Student Research Activity Interest in Distinction in Research Program. Students engaging in non-clinical research rotations.	Assistant Dean for Research, Director of Student Research, and ORSP Staff	Resources to support student groups	Begin: July 1, 2024 End: June 30, 2025 Critical Points: Mid-point and end of academic year

GOAL: Burrell College supports faculty and students in their efforts to advance knowledge by creating an atmosphere of inquiry and discovery that inspires excellence in scholarship and medical practice

TACTICAL INITIATIVE: The Office of Research and Sponsored Programs Will Provide Comprehensive Support of College's Research Enterprise.

MARKET ANALYSIS

A process that results in factual information that helps you identify opportunities

Strengths

- Good college basic science research facilities;
- Developing ORSP team with paid director of laboratories, two staff member;
- Good oversight through Human Subjects Research and Biosafety Committee;
- Developed Summer Research Program;
- Established Compliance Training (CITI) and Laboratory Standards/Hazard Guidance;
- Distinction in Research Tract for Medical Student: and.
- The Distinguished Researcher Seminar Series connects college faculty with researchers from other institutions.

Weaknesses

- Faculty workload limits time for scholarship;
- Research infrastructure needs improvement for notification for funding, assistance with proposals., ORSP limited in terms of notification of funding opportunities, and assistance with proposal development;
- Medical school "for profit" status restricts funding opportunities;
- Although basic science laboratory space is provided, it is relatively remote from the campus;
- Sponsored Programs portion of ORSP underdeveloped without efficient administration throughout award process;
- Cumbersome systems as an example use of Qualtrics for research administration.
- Both Basic and Clinical Science faculty with limited research training or experience; and,
- Modest alignment between ORSP and Departments priorities.

Opportunities

- Location of Burrell on campus of NMSU/Florida Tech which should leverage relationships to engage in research and scholarship;
- Expertise of the faculty.
- BURRELL students are increasingly interested in presentations and publications as a way to improve this
 performance record to increase competitiveness on their residency applications;
- Affiliated residency programs are interested in research and scholarship.

Threats

- Organizational structure in ORSP needs to be evaluated. Assistant Dean turnover has created a lack of research community.
- Competing priorities for faculty such as committee work, teaching, interviewing of applicants, and expansion of the medical school in Florida has left the faculty little time for research;
- Relative lack of grant applications and extramural funding by faculty; and,

Scant development of faculty that facilitates development of academic careers, and research program.

ACTIVITIES What actions will you undertake to achieve tactical initiatives and meet identified metrics? Develop a robust pre-award through post-award process that is capable of meeting requirements of extramural research sponsors.	METRICS How will you measure the performance of the activity? Develop current staff on funding opportunities, proposal development and submission, award negotiation and acceptance, account set up and award management.	RESPONSIBILITY Who is accountable for the success of the activity? Assistant Dean ORSP and current staff	RESOURCES What current and additional resources are required? Funding for workshops, Incentives for participants, Incentives for successful completion of activities. GOAL: To support College goals for enrollment, scholarly activity, and mission-driven community impact through receipt of gifts, grants, and contracts to supplement tuition revenue.

TACTICAL INITIATIVE: Expand gift, grant, and contract (GGC) revenue sources.

MARKET ANALYSIS A process that results in factual information that helps you identify opportunities	S-The College's direct and indirect impact on improving healthcare. W-The College's status as a proprietary institution. O-Expand outreach to all constituents which may support increased GGC funding; partner through COE and directly with sponsors. T-Other targeted outreach from nonprofits may weaken impact of College outreach.
